# Health and Safety Management System

## Powerful features, simply designed

Simplify your organisation's health and safety performance with our health and safety management system software.

Our system has been developed in 'real time' working environments – simplicity of use at the forefront of our design consideration.

We believe in protecting everyone in a workplace so they can go home to families/whanau and friends at the end of the day.

New Zealand owned - designed with New Zealand businesses in mind

**Affordable**  
cost effective monthly service fee

Comply with confidence – Health and Safety at Work Act 2015  
Improve safety culture

**Accessible**  
hosted on servers in New Zealand

### Take action today

## Benefits

### Accessible

- via desktop, mobile, tablet
- perfect for work from home, remote and multiple work sites
- information is always current – providing 'dynamic' status

### Simple To Navigate

- user friendly intuitive dashboard
- encourages reporting – capture risks, hazards and injuries with ease

### Adaptable

- templates to suit your individual requirements
- 'off the shelf' and custom system options

### Share

- export, print and share reports with ease

## Features

### Hazard and Risk Register

- identify, record, share risks and hazards
- assign risks and hazards
- create mitigation controls
- upload relevant images and documents
- manage all your organisational hazards
- **review tool** allows seamless feedback
- **automatic notification** alerts designated users of a reported hazard
- reporting with a 'single click'

### Contractor Register

- identify and record external contractor risks and hazards
- credentialing and online induction option

### Injury Register

- capturing injury details – anatomical imagery accurately pinpoint injury site
- upload relevant images, documents
- undertake investigations and create actions to reduce likelihood of recurrence

### Health and Safety Representative Task Management

- monthly tasks easily reported
- upload document evidence
- managers have an overview of current and outstanding activity across entire organisation

### Reporting and Graphing Suite

- allows identification of trends and organisational snapshots
