## Benefits

### Affordable

- stores all plans in one place

### Accessible

- via desktop, mobile, tablet
- perfect for work from home, remote and multiple work sites

### Simple To Navigate

- easy to understand format

### Adaptable

- customisable templates to suit your individual requirements

### Share

- export, print and share reports with ease

## Features

### Geo Mapping

- visualise 'real time' helicopter view of all your site locations
- gives you a true feeling of the degree of impact of an incident at each site

### Business Analyses

- explore business analyses including stakeholder, deliverables and dependencies
- create impact analyses to consider effect on resources, staffing and systems

### Emergency Plans

- adapt our generic templates to detail communication, equipment, staffing levels and utilities specific to your business

### Emergency Response System

- use our templated Emergency Action Plan (EAP) tool to develop your specific plan
- create incident action plans for each locality
- share situation reports simply with our email module

### Situation Reports

- generate individual location and overall organisational reports to capture real time view
- available to any person authorised to access system regardless of locale
- keep all personnel up to date on situation management
