Dashboard Functionality and Features

Powerful features, simply designed

Quality Hub's team knows the importance of being able to collate information, trends and usable data into a meaningful format - fit for your purpose.

We provide dynamic configurable dashboards, enabling users to quickly identify trends and incidents so they can implement timely responses and therefore improve health and safety compliance.

- customisable to suit your individual requirements
- build individualised reports
- add filters to reporting

Features

'Off the shelf' dashboard

- Our 'off the shelf' systems include generic dashboard reporting functionality, data is displayed in a meaningful way.
- Many organisations find the features in this dashboard effective, simple and suited to their needs.

'Custom' dashboard

- For 'custom' systems we create specialised reporting dashboards - with agile sets of reports connecting into your existing data and the results displayed beautifully.
- We work with you to develop a dashboard, capturing what you want and need to see - complete with customised filters, ability to build your own reports.

'our dashboards display your data with purpose and meaning'
